Sheriff Hilton and Tim Braun.

Came in to talk to about courthouse security and issues and items they feel need to be addressed. They do feel that elected officials should have access to their offices and there are other individuals will also need some access after-hours. Security will be transferring to the Sheriff effective July 3, 2017 and he will have supervisor that will start on the same day to run security. The thought was we may need to have one more part-time person. We will also need to make sure Fremont PD has access to the building for emergencies.

There is going to be a list of prohibited items that is going to be noted. A sign will be posted at parking lots, steps and entrance. We will need to depend on media to help get the word out to the general public. They will discuss setting up the courthouse security committee and make sure they meet on a regular basis.
